Education

Islamic Azad University's south
Tehran Campus,
Bachelor's Degree,
civil engineering

Key Skills

Android development
Scala
Haskell
Kotlin
Reactive streams
Backend development
SQL databases
Http REST APIs
Play Framework

About Me

I love working with functional first programming languages such as Haskell, Scala, and F#, and I also utilize functional design patterns in my projects.

I have experience in backend development largely through the Scala/Play Framework/Akka stack.

I have dedicated extensive time understanding reactive streams.

I have also developed highly reactive Android apps.

Experience

02/2017 - present

Business partner & lead Android developer • Tezolmarket

www.tezolmarket.com

05/2015 – 02/2017
